DIMENSION

Established in 1978, Fuji-Haya Electric Corp. of the Philippines has become the biggest manufacturer of electrical distribution and control equipment such as Panelboards, Switchgears, Meter Centers for the commercial building market.

In this span of over 4 decades, Fuji-Haya Electric has gained the trust of many customers through its highly reliable and durable equipment.

The Fuji-Haya Electric AION Energy Meters is another example of this reliability and durability and comes with built in Modbus connectivity and dual tariff capabilities and are Philippine ERC approved and listed.

The Fuji-Haya Electric Sfera 720C Power Monitor Meter performs measurement of various electrical characteristics that are essential to the safe and informed operation of Switchgears. The Fuji-Haya Electric Sfera 720C is also Philippine ERC approved and listed.

Complementing these meters are Fuji-Haya Electric AION Current Transformers manufactured in full compliance with IEC 61869-1, IEC 61869-2
